Election and Campaign Finance Law

We advise elected and appointed public officials, candidates, political committees and PACs, unions, not-for-profit and for-profit corporations in a wide range of legal and regulatory matters, including ballot access, campaign finance, lobbying and ethics issues; this includes representing such individuals and entities when they become targets or subjects of investigations and prosecutions. On their behalf, we regularly appear before or interact with various administrative agencies (such as the New York Board of Elections; the New York City Campaign Finance Board; the Joint Commission on Public Ethics; the City Clerk of the City of New York), prosecutors (District Attorneys; United States Attorneys; Attorneys General), and the courts (state and federal).
