## Insurance / Reinsurance: Regulation of Transactions

Our seasoned team, which includes former regulators and industry professionals, has the practical knowledge to guide our clients through state and national regulatory frameworks to achieve their business objectives.

We help insurers, intermediaries, financial institutions and other market participants obtain regulatory approval for acquisitions of control, structure complex affiliate and third-party transactions and in connection with insurer formation and licensing. Our multidisciplinary approach makes us a leading firm for insurance matters related to financial restructuring, insolvency, demutualizations and market conduct.

Our deep industry knowledge of regulatory trends and issues ensures that our clients' views are respected by regulators. We regularly advise our clients, including industry groups, on new regulatory developments related to capital and legal investment requirements, corporate governance, statutory accounting and financial reporting requirements, regulatory examinations and investigations, mergers, acquisitions and other corporate changes, and discontinued operations, restructurings and receiverships.
