## Acquisitions / Dispositions

We guide clients through the nation's largest and most complex real estate deals.

Our national Real Estate team represents clients on real estate acquisitions and dispositions of every type and size, in every major and secondary market in the United States. In the course of advising America's real estate elite, our lawyers have developed the skills necessary to deliver value-added, business-minded legal advice in an effective and efficient way. Considering the demands of today's fast-paced real estate market, we apply our understanding of the market-driven give-and-take in acquisitions and dispositions to our representations, whether transacting on a single asset or a large portfolio.

We have experience managing complex acquisitions. With many billions of dollars of real estate transactions under our belt and a team of over 80 real estate professionals, there is no deal too large or too complex. We regularly steer our clients through a maze of due diligence and legal issues on office, industrial, multifamily, retail and alternative property types, such as hospitality, self-storage and senior living. We routinely manage regulatory concerns, including environmental issues, zoning and land use and CFIUS. Many of our clients enter transactions through joint ventures, TICs and private REITs, and, through our multi-disciplinary approach, we help them establish and maintain successful long-term relationships with their fellow investors.
