Restructuring & Bankruptcy

With the recent addition of six attorneys from the New York based restructuring and bankruptcy firm Luskin, Stern & Eisler, Stroock solidified its position as one of the premier insolvency practices in the country. Our interdisciplinary team, including tax, debt finance, ERISA and litigation practitioners, partners with our clients to maximize recovery in distressed situations in an expeditious and cost-effective manner. Our clients repeatedly turn to us to unravel complex transactions involving securitizations, cross-border financings, and derivatives (including commodity, interest rate hedges and foreign exchange contracts), and to take the lead on a restructuring, an enforcement action, or a chapter 11 proceeding.

We represent financial institutions, investors, and other parties in large, complex out-of-court workouts, restructurings, bankruptcy proceedings and related litigation. We are involved in many cases throughout the country, across international borders, and in almost every industry imaginable: project finance and infrastructure; education; food distribution and processing; digital marketing; car manufacturing; electronic games; entertainment and hospitality; healthcare; real estate; hedge funds; commodities trading; airlines; retail; oil and gas, mining and metal refining; shipping; and power generation (wind, ethanol, and nuclear). We also represent real property lessors in asserting rights and protecting interests in bankruptcy matters and labor unions in municipal and other bankruptcies.

The firm and individual attorneys have received numerous awards and recognitions in the areas of bankruptcy and restructuring from, among others, *Chambers USA*, *Lawdragon*, *Super Lawyers*, *IFLR 1000*, *Best Lawyers in America* and *Martindale-Hubbell*. We attribute these recognitions and the repeat business we receive from our clients to our hands-on approach, complete dedication to our clients' needs, focus on solving problems efficiently and expeditiously and record of successful results.
